

(d) If your facility which stores, handles, transfers, processes, or transports oil does not fall into the categories listed in paragraph (a), (b), or (c) of this section, contact the Regional Supervisor for instructions on the calculation of the volume of your worst case discharge scenario.

**Subpart D—Oil-Spill Response Requirements for Facilities Located in State Waters Seaward of the Coast Line**

**§ 254.50 Spill response plans for facilities located in State waters seaward of the coast line.**

Owners or operators of facilities located in State waters seaward of the coast line must submit a spill-response plan to BSEE for approval. You may choose one of three methods to comply with this requirement. The three methods are described in §§ 254.51, 254.52, and 254.53.

**§ 254.51 Modifying an existing OCS response plan.**

You may modify an existing response plan covering a lease or facility on the OCS to include a lease or facility in State waters located seaward of the coast line. Since this plan would cover more than one lease or facility, it would be considered a Regional Response Plan. You should refer to § 254.3 and contact the appropriate regional BSEE office if you have any questions on how to prepare this Regional Response Plan.

**§ 254.52 Following the format for an OCS response plan.**

You may develop a response plan following the requirements for plans for OCS facilities found in subpart B of this part.

**§ 254.53 Submitting a response plan developed under State requirements.**

(a) You may submit a response plan to BSEE for approval that you developed in accordance with the laws or regulations of the appropriate State. The plan must contain all the elements the State and OPA require and must:

(1) Be consistent with the requirements of the National Contingency

Plan and appropriate Area Contingency Plan(s).

(2) Identify a qualified individual and require immediate communication between that person and appropriate Federal officials and response personnel if there is a spill.

(3) Identify any private personnel and equipment necessary to remove, to the maximum extent practicable, a worst case discharge as defined in § 254.47. The plan must provide proof of contractual services or other evidence of a contractual agreement with any OSRO's or spill management team members who are not employees of the owner or operator.

(4) Describe the training, equipment testing, periodic unannounced drills, and response actions of personnel at the facility. These must ensure both the safety of the facility and the mitigation or prevention of a discharge or the substantial threat of a discharge.

(5) Describe the procedures you will use to periodically update and resubmit the plan for approval of each significant change.

(b) Your plan developed under State requirements also must include the following information:

(1) A list of the facilities and leases the plan covers and a map showing their location;

(2) A list of the types of oil handled, stored, or transported at the facility;

(3) Name and address of the State agency to whom the plan was submitted;

(4) Date you submitted the plan to the State;

(5) If the plan received formal approval, the name of the approving organization, the date of approval, and a copy of the State agency's approval letter if one was issued; and

(6) Identification of any regulations or standards used in preparing the plan.

**§ 254.54 Spill prevention for facilities located in State waters seaward of the coast line.**

In addition to your response plan, you must submit to the Regional Supervisor a description of the steps you are taking to prevent spills of oil or mitigate a substantial threat of such a discharge. You must identify all State

or Federal safety or pollution prevention requirements that apply to the prevention of oil spills from your facility, and demonstrate your compliance with these requirements. You also should include a description of industry safety and pollution prevention standards your facility meets. The Regional Supervisor may prescribe additional equipment or procedures for spill prevention if it is determined that your efforts to prevent spills do not reflect good industry practices.

## **PART 256—LEASING OF SULPHUR OR OIL AND GAS IN THE OUTER CONTINENTAL SHELF**

### **Subpart A—Outer Continental Shelf Oil, Gas, and Sulphur Management, General**

Sec.

256.0 [Reserved]

256.1 Purpose.

256.2–256.5 [Reserved]

256.7 Cross references.

256.8–256.12 [Reserved]

### **Subpart B—Oil and Gas Leasing Program [Reserved]**

### **Subpart C—Reports From Federal Agencies [Reserved]**

### **Subpart D—Call for Information and Nominations [Reserved]**

### **Subpart E—Area and Identification and Tract Size [Reserved]**

### **Subpart F—Lease Sales [Reserved]**

### **Subpart G—Issuance of Leases [Reserved]**

### **Subpart H—Rentals and Royalties [Reserved]**

### **Subpart I—Bonding [Reserved]**

### **Subpart J—Assignments, Transfers, and Extensions**

256.62–256.68 [Reserved]

256.70 Extension of lease by drilling or well reworking operations.

256.71 Directional drilling.

256.72 Compensatory payments as production.

256.73 Effect of suspensions on lease term.

### **Subpart K—Termination of Leases**

256.76 [Reserved]

256.77 Cancellation of leases.

### **Subpart L—Section 6 Leases**

256.79 Effect of regulations on lease.

256.80 [Reserved]

### **Subpart M—Studies [Reserved]**

### **Subpart N—Bonus or Royalty Credits for Exchange of Certain Leases Offshore Florida [Reserved]**

AUTHORITY: 31 U.S.C. 9701, 42 U.S.C. 6213, 43 U.S.C. 1334, Pub. L. 109–432.

### **Subpart A—Outer Continental Shelf Oil, Gas, and Sulphur Management, General**

#### **§ 256.0 [Reserved]**

#### **§ 256.1 Purpose.**

The purpose of the regulations in 30 CFR part 256 is to establish the procedures under which the Secretary of the Interior (Secretary) will exercise the authority to administer a leasing program for oil, gas and sulphur. The procedures under which the Secretary will exercise the authority to administer a program to grant rights-of-way, are addressed in part 250, Subpart J.

#### **§§ 256.2–256.5 [Reserved]**

#### **§ 256.7 Cross references.**

(a) For Bureau of Safety and Environmental Enforcement (BSEE) regulations governing exploration, development and production on leases, see 30 CFR parts 250 and 270.

(b) For BSEE regulations governing the appeal of an order or decision issued under the regulations in this part, see 30 CFR part 290.

(c) For multiple use conflicts, see the Environmental Protection Agency listing of ocean dumping sites—40 CFR part 228.
